CLASS: 4th STANDARD.

SCHOOL: SENGUNTHAN PRIMARY SCHOOL.ERODE.

Dear & Respected Mr./Mrs. ZENKOVA PAVLINA,
Greetings from AKALYA and her family,

Wish you a very Happy Easter Greetings to all. The trails, crucifixion, death and redemption of Christ may bring hope, new life and the happiness which is unconquerable. The Resurrection of Christ may provide all of the benefits and blessing all through your life.

The annual exam will start in April. I scored the following marks in Half Yearly Exam, Tamil 45, English 40, Mathematics 35, Science 50, and Social Science 45 marks. My uncle (My father's elder brother) has built a new house near my house. A little house it is. Don't think that it has all the facilities like your house and country. It is only eligible for living, kitchen, hall and a room in little size. It is enough and economic level is not more than this. In addition of the family maintenance, education support to their children, medical expenses, rent, travelling and purchasing of cloth etc., are too burden to the parent. Apart from this they must save for them and children's future. Meanwhile purchasing of land and constructing home for them is a great Gift of Lord. Settle of Life in India becomes hard and hard nowadays. Poor and middle class people are getting to much of suffer.

We experience the winter season now. But it is not just like your country. We enjoy the dryness of snow all over the Southern India. The mountain place of Himalaya is only looking like your country. The games playing on the snow, ice by your country person are not seen here except in Himalayas (Jammu & Kashmir). We can see the snow layer on the Western Range, Eastern Range and Vindya Sathpura Ranges. But there will be no ice layer. We can't see and play your games here expect Himalayas. The day time and night time will be differing in summer and winter. 40 to 50 minutes differ. The sun raise will occur in summer 5.30 AM but in winter after 6 AM, the sun set will occur in summer after 6.30 PM but in winter before 6 PM. The summer will start before February.

Due to the failure of the rainfall, the water level in dams become down. Water scarcity may occur in summer. The North West monsoon failed. The rain fall in the season is to less.

In 2014 Indian Government General Election will be held. The State Parties become strong than the National Parties. Because the state issues are differ from one state to another state. Democratic Ruling in India is very hard, because many state, many languages, traditions, culture; religions are the reason for it. We want stable and strong ruling. Suppose alliance ruling may occur. Anyhow we expect healthy government.

Wish you again a very Happy Easter Greetings to all. The salvation Christ is the real happy life to all. May His Blessing be with us always. Thank you.

Yours lovingly,
AKALYA. K.
