Greetings from Akalya & her family,

I am very happy to meet you in the beginning of the Academic Year: 2014-15 and in the place to get your wishes and blessing for the progress of my life. Thank you so much in continuing your support. I remember you and your family for your generous and kindness. All are well in my family and hope that you are doing well.

My father kumar working as an electrician (UNSKILLED) and my mother is a Non teaching staff at school. My brother saravanakumar passed to 3rd standard in same school. We went to our grandma's house for a week. There we celebrated the feast of Perpetual Mary. In church they conducted games competition and I participated in it. I achieved 1st place in the running race.

During the summer holidays we went to Kurusumalai in Kerela. St.Thomas church at Kurusumalai is a very famous church in INDIA located above the hills. Many Christians do the way of cross on the hills and finally reach the church. It is a new experience in climbing on the hill and also it gives strength to my soul.

This year the summer is too hot. The mercury touches up to 108 degree. Due to the depression in Bay of Bengal in lieu of the hotness 3 days it rained well. By this rain the hotness of the sun decreased. It was a just and best relief from the mercury. In the Parliament Election the Bharathiya Janata Party won the ruling. May we meet in the next letter. Thank you so much our prayerful wishes to all.

Yours lovingly,

Akalya.
